

# Compiling and executing Matlab on CHTC

Nagesh Adluru

Waisman Center

November 11, 2014

# Pipeline

# Compile on a CHTC submit node

- Examples
  - `medusa.keck.waisman.wisc.edu`
  - `submit.chtc.cs.wisc.edu`

# Three examples

- SimpleExample
- NODDIExample
- VIPRIRExample

# Let us go through

- <http://chtc.cs.wisc.edu/MATLABandR.shtml>
- <https://github.com/nadluru/NeuroImgMatlabCondor>

# Caution

- `chtc_mcc` is written in house by folks at CHTC and is prone to updates and changes so it is important to keep a close eye on its behavior.

# Debugging

- `condor_ssh_to_job jobID`
- `cat ChtcJobWrapperJobID.txt`

Thank you all!
